PROFILE

I'm a results-driven Software Developer with strong skills in full-stack development, backend systems, and cloud infrastructure. I build secure, scalable, and maintainable applications that solve real-world problems. With a focus on clean code and performance, I streamline workflows and enhance user experience. I work well in cross-functional teams and thrive on delivering reliable, high-quality solutions.

EDUCATION

BSc in Information Technology(Final Year) 2022- 2025
School of IT and Computer Science | North-West University

WORK EXPERIENCE

North-West University
Student Assistant - (Serving 150+ Students)

- Supported 150+ students with Java OOP assignments, debugging, and project guidance
- Explained OOP concepts such as classes, inheritance, polymorphism, and encapsulation in a simplified manner.
- Helped students understand and implement object-oriented design principles in real-world scenarios
- Conducted lab demonstrations and reviewed code for quality and adherence to best practices
